Year 5	95.4%				
Year 6	92.2%				

Well Done Year 1 - off to a great start. With Reception not far behind.

Could your child be making the difference?

World Book Day

WORLD BOOK DAY®

Changing lives through a love of books and reading.

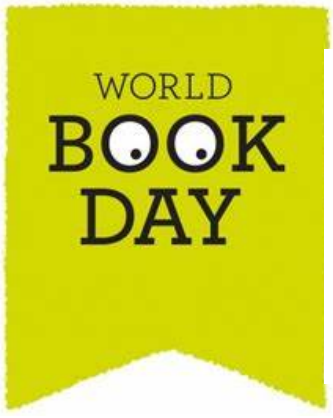

You can find magic wherever you look. Sit back and relax, all you need is a book.

Last week, we celebrated World Book Day. It was lovely to see so many children dressed up as their favourite characters. Some of the costumes were amazing! The children took part in different activities throughout the day and really enjoyed the stories that were shared.

Internet Safety

School Meals

Our aim as a school is to deliver great food at affordable prices for both children and parents. Unfortunately as the cost-of-living crisis is still ongoing we continue to experience the knock on effect of this in day to day lives with prices in supermarkets and other daily costs rising almost weekly.

We therefore wanted to write to you to let you know that to try to limit the impact of this Walsall Council Catering have tried to minimise the increases by looking at changing some suppliers and adding some new product lines on our menu. However in order to address these increases fully the prices of school meals will be raised.

As of **17th April 2023** there will be a price **increase of 5p** per meal to all PAID meals, taking the cost up to **£2.15 per day.**

HAF

Would you like help signing your child up to the Easter HAF programme?

Please get in contact with either Mrs Hanson or Miss Francis who will be happy to help.

Walsall College

Walsall College is taking part in a new project to support people aged 19 – 29 living in the Birchills, Leamore and St Matthews wards who are currently not studying, working or in any form of training.

The *Ignite2 Project* aims to support people in these postcode wards with provisions from Walsall College in a variety of areas, which could be any of the following:

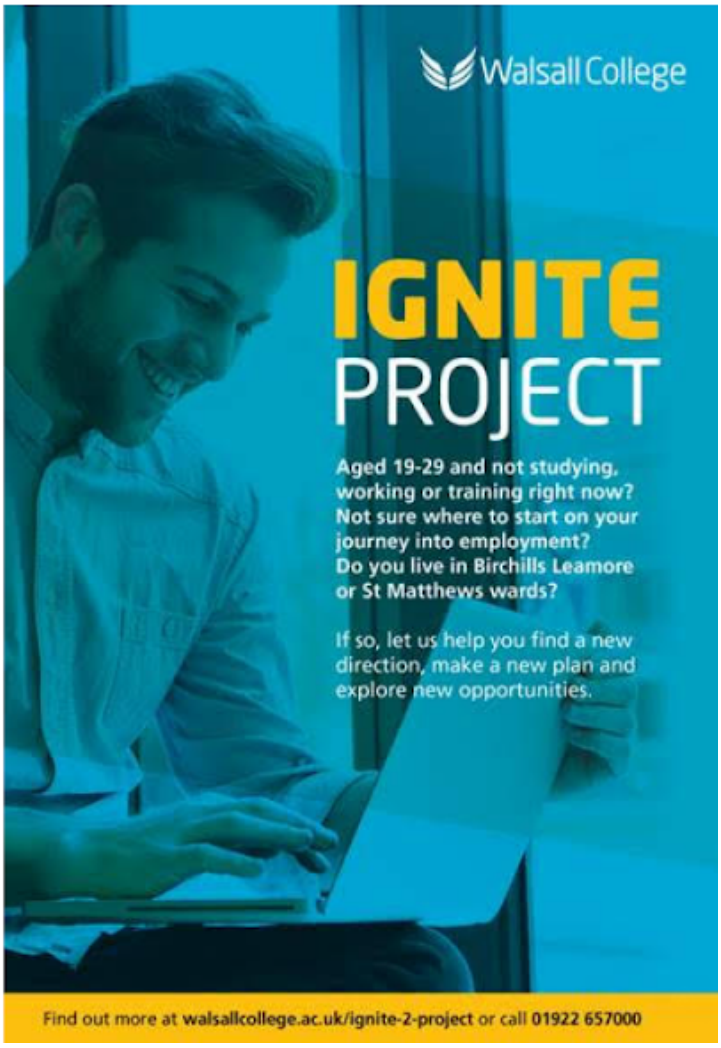

Part-time Courses

Home Based Learning

Short training courses

Apprenticeships

Short courses to help people back into work

We also offer a free impartial Careers, Advice & Guidance service at the college where you can chat to our team who will be able to advise you in a number of ways, even regarding courses not necessarily at Walsall College, including:

- Finding a college/further education course that suits you
- Giving you a heads-up on free training, apprenticeship or job opportunities
- Putting you in touch with people and services to guide you into self-employment or a social enterprise

Participants who fully engage will have access throughout their journey to an assigned member of staff, as well as access to a free digital tablet!

Year 4- Home Learning Project

Over the February half term, Y4 were asked to take part in a home learning project all about the Victorians. They were able to choose what they would like to do to represent things they had researched and learned. We had a range of things created, from portraits to toys to a creation of the Ironbridge Gorge. We are very thankful to all parents who helped with this project.

Blists Hill Trip- Y4

On the 8th March 2023, Y4 were able to visit Blists Hill- Victorian Village. Whilst they were there, they got to look at all the artefacts that displayed the history. Additionally, they were able to look in different shops and houses to understand how they would have worked and to also compare how their lives are different.

Some of them were a little worried when they had to go into the school but being able to dress like a victorian made the experience even more amazing. We as a school are so proud of how they represented us and also how polite and enthusiastic they were about the whole experience.

New Staff Member

We would like to give a big Leamore Welcome to Vickie, a new member of our Leamore Family. Vickie has said

“Hi everyone, and I am very much looking forward to working around the school grounds to transform all outdoor areas, to add colour, texture, fragrance and include plants that attract nature and wildlife. I am excited to work with the children to introduce seasonal growth that we can all enjoy and look forward to the changes as the Spring months turn into Summer. There are many benefits of gardening and tending to nature that contribute to our wellbeing and the children will be able to follow the progress from the first seed to flourishing blooms and fruits”
