

saferonline

Staying safe online is crucial in today's digital world. Here are some tips to help you navigate the online space securely and beat the fraudsters:

- Use a strong, unique password for your email account
- Create strong passwords using three random words
- Save passwords in your browser
- Turn on two-step verification
- Update your apps and device's software whenever prompted
- Make sure your important data is backed up
- Report suspicious messages. You can forward suspicious texts to **7726** or suspicious emails to **report@phishing.gov.uk**
